The image features a warm, autumnal background with a soft, out-of-focus glow of light. At the top, there are branches with vibrant yellow and orange maple leaves. In the bottom right corner, a large, realistic-looking orange pumpkin with green leaves and a stem sits on a rustic wooden plank surface. Scattered around the pumpkin and along the bottom edge are more fallen autumn leaves in various shades of yellow, orange, and red.

NEW to our library...

Little Local's

**A special section now for our
youngest authors!**

We have long had established here at the Willington Public Library, highlighted a special section for our library's local author's. These are author's from all around CT and other nearby States, many of whom had presented their books to the world for the first time here at our library. We have always felt it to be a special honor for everyone.

Now, we have had children who have also shown a special interest in creating their own stories and putting them into book form. We have been publishing these books for our own library circulation in support of this wonderful endeavor. These "little local author's" will now have a special section all their own as well.

So, come and see what some children have written so far and check them to read at home or enjoy reading them here while you are visiting the library.

We encourage other children to create and write their own stories and submit their finish work to us for our own in house publishing process and see their names as author's.

In a world where information and technology are everywhere and ever-present, opportunities to unplug are becoming more essential, benefiting both professional and personal experiences. The availability of technology and the constant connectedness that it provides coupled with an immense amount of information (news, e-mail, social networks, etc) places many individuals in danger of cognitive overload. People want control of their technology instead of their technology controlling them.

The library is now offering its Reading Room as a **DEVICE FREE - NO TECH ZONE** to help meet this growing need to take a break and unplug, turn off and connect. This area will be designated for the WPL community to disconnect, relax and de-stress.
